

JAAR CAPABILITY STATEMENT

Integrated Security Solutions for Government and Commercial Facilities

SAM Registration	Active
UEI	S1NYYFWYAL45
CAGE Code	21FE4
DCJS	Licensed

Business Classifications

- Small Business
- Active SAM Registration
- DCJS Licensed
- Public Trust Cleared Personnel

Mission Statement

JAAR LLC delivers reliable, scalable, and technology-driven physical security solutions that protect personnel, facilities, critical infrastructure, and government assets through the integration of electronic security systems, surveillance technologies, access control systems, and communications infrastructure.

Core Competencies

- Electronic Security Systems (ESS)
- CCTV & IP Video Surveillance Systems
- Access Control Systems & Credential Management
- Video Management Systems (VMS)
- Intrusion Detection Systems (IDS)
- Perimeter Security & Gate Access Control
- Cellular Signal Boosters & Distributed Antenna Systems (DAS)
- Structured Cabling & Low-Voltage Infrastructure
- Security Systems Integration
- Testing, Commissioning & User Training

Why JAAR LLC?

- Active SAM Registration & CAGE Code
- DCJS Licensed
- Public Trust Cleared Personnel
- Senior Technical Personnel with 20+ Years Experience
- Responsive Small Business Structure
- Technology-Driven Security Solutions

Leadership & Relevant Project Experience

Khalil Ullah – Founder & Principal

Public Trust Cleared | Federal Operations Experience | Project Management | Government Contracting Support
Khalil Ullah brings more than eight years of leadership experience supporting federal and commercial operations, including service delivery management, project coordination, workforce leadership, customer engagement, and contract support activities. Throughout his career, he has managed teams of up to 53 personnel, supported mission-critical government environments, and overseen operational processes supporting thousands of end users. His experience includes program operations, incident and problem management, workforce scheduling, vendor coordination, performance management, asset lifecycle management, and customer service delivery within complex federal and commercial environments. As Founder and Principal of JAAR LLC, he is responsible for strategic planning, business development, proposal development, regulatory compliance, client relationships, vendor partnerships, and overall project execution.

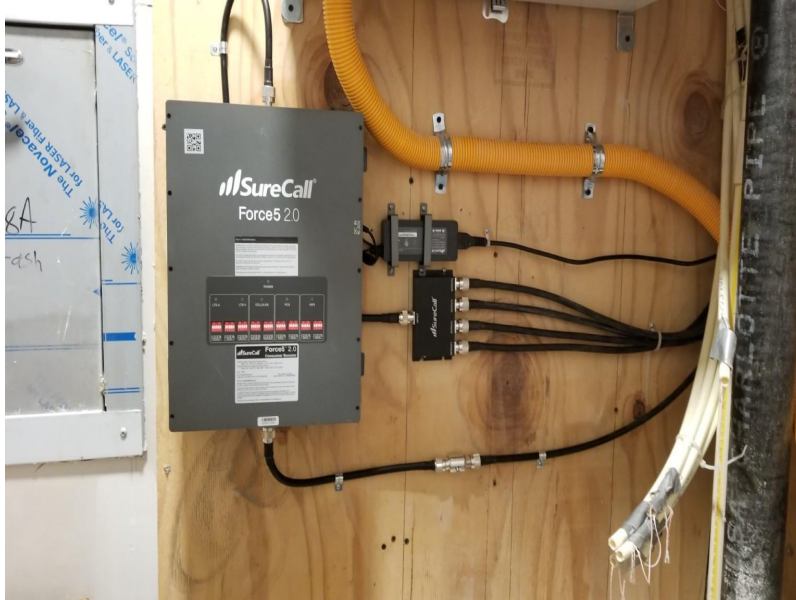

Mr. Ullah is committed to helping organizations protect personnel, facilities, critical infrastructure, and operational assets through responsive service, strong partnerships, and effective security solutions.

Cristian Rogers – Senior Security Systems Technician

Approximately 20 years of experience supporting Electronic Security Systems, CCTV, Access Control, Networking, Low-Voltage Infrastructure, Audio/Visual Integration, Testing, and Commissioning.

Relevant Project Experience

- **CNSI Headquarters Facility:** Supported deployment and integration of technology infrastructure within a nine-level commercial facility (PA systems, CCTV, DAS, communications).
- **City Fertility:** Supported security and network infrastructure deployments across approximately 30 locations (CCTV, access control, credential management, networking).
- **Commercial Cellular Signal Enhancement Systems:** SureCall DAS deployments, RF distribution, antenna infrastructure, low-voltage cabling, testing, optimization, and commissioning.

SureCall Force5 DAS Infrastructure

Exterior Antenna Array Deployment

Technology Experience

Hanwha Vision • Axis Communications • SureCall • ADI Global Distribution
